DIRLINE® - Directory of Health Organizations Online
DIRLINE contains over 8,500 records about health and biomedical organizations. The records have location and descriptive information about the organizations.

Dietary Supplements Labels Database
This database offers information about ingredients in more than 3,000 selected brands of dietary supplements. Users can determine what ingredients are in specific brands and compare ingredients in different brands.

Drug Information Portal
Information on more than 15,000 drugs from entry into clinical trials through their admission to the market place.

Haz-Map
An occupational health database designed for health and safety professionals and for consumers seeking information about the health effects of exposure to chemicals at work.

Household Products Database
This database links over 8,000 consumer brands to health effects from Material Safety Data Sheets (MSDS) provided by manufacturers.
LactMed
A database of drugs to which breastfeeding mothers may be exposed. It includes information on the levels of such substances in breast milk and infant blood, and the possible adverse effects in the nursing infant.

MedlinePlus
MedlinePlus brings together authoritative information from government agencies and health-related organizations. Pre-formulated MEDLINE searches give easy access to medical journal articles. MedlinePlus also has information about medications, an illustrated medical encyclopedia, interactive patient tutorials, and the latest health news.
http://medlineplus.gov

Medline/PubMed
PubMed includes over 18 million citations from MEDLINE and other life science journals for biomedical articles back to 1948. PubMed includes links to full text articles and other related resources.
http://pubmed.gov

Tox Town
An interactive guide to toxic chemicals and environmental health risks where people live, work, and play. Tox Town includes non-technical descriptions of chemicals and links to reliable science-based information.

TOXMAP
Uses maps of the United States to help users visually explore data from the EPA's Toxics Release Inventory (TRI) and Superfund Programs.

ToxMystery
An interactive learning site featuring “Toxie” the cat, ToxMystery is designed to help children from 7-10 years old find clues about toxic substances that can lurk in the home. ToxMystery is available in English and Spanish.

TOXNET® - Toxicology Data Network
A collection of databases covering toxicology, hazardous chemicals, environmental health and related areas.

WISER - Wireless Information System for Emergency Responders
Assists first responders in hazardous material incidents.
